

Quality Management in Highway Works involving stocking and distribution of mechanical fasteners: NHSS 3

What is NHSS 3?

NHSS 3 – Particular requirements for the application of ISO 9001:2015 for stocking and distribution activities for mechanical fasteners (Applies to Manufacturers, Importers and Distributors of Mechanical Fasteners). NHSS 3, which has been adopted for National Highways specifications, is a bespoke quality management system for companies that are involved in the stocking and distribution of mechanical fasteners that are to be supplied for use in infrastructure assets.

What benefits does certification to NHSS 3 provide?

- Demonstrates compliance with infrastructure specification quality management requirements
- Addresses the obligations placed on importers and distributors of mechanical fasteners by the Construction Products Regulations
- Provides you with competitive advantage
- Increased access to new customers and business partners

SCCS have always provided an exemplary audit service, with knowledgeable auditors who provide good feedback. First class service!

Braithwaite, SCCS Client

SCCS is the UKAS Accredited Certification Body (0021) specifically for companies engaged in design, manufacture and installation of building materials and associated products and services. The objective of the Scheme is to secure high standards of excellence and quality across all processes, procedures, and practices through independent certification to specific standards. The technical knowledge, practical skills and sector experience the team and auditors bring, makes SCCS the go to certification and auditing providers in the construction industry.
